## INSTRUCTIONS

1. Wipe bowl clean with damp sponge.
2. Tape from the bottom of the rim to the top of the rim in a slant to the right then tape again and slant to the left to create a triangle. Repeat until you've covered the rim. You should have a sun in the middle of your bowl.
3. Paint the sun using a medium round brush and #46. (3 coats, allow paint to dry between coats.)
4. Carefully peel away the tape.
5. Paint the rest of the bowl with #35 and a medium round brush. Use a small round brush to paint between the sun triangles. (3 coats, allow paint to dry between coats.)
6. Tape the Mickey Template over tracing paper and trace onto the inside of the bowl. (If the tracing is difficult to see, gently go over it with a pencil.)
7. With a medium round brush paint Mickey with #69. (3 coats, allow paint to dry between coats.)
8. Make bubble mix with 4 tablespoons of water, 2 tablespoons of paint (#85), and a drop of dish soap. Mix well. Using a straw blow gently into the mix to create bubbles.
9. Flip bowl upside down and carefully place bubbles to the outside of the bowl. Allow the bubbles to pop on their own and dry before turning your bowl over.
